	<p><b>Wikis</b></p> <p>A wiki is a new site template in Windows SharePoint Services v.3 that makes it easy to create, edit, link, and restore an individual Web page. Wikis can be used as creative forums to brainstorm ideas, manage knowledge bases, create designs as well as instruction guides or simply gather information in an easy-to-edit format. Wikis are easy to create, modify, and annotate; in addition to tracking contributions and changes.</p> <p>Key features include:</p> <ul style="list-style-type: none"> <li>• Fast and easy page creation</li> <li>• Easy and automatic linking</li> <li>• Version differences</li> <li>• WYSIWYG (what you see is what you get) Web page editing</li> </ul> <p>Wikis leverage existing SharePoint functionality including search, navigation, alerts, and custom fields.</p>	☑		☑	☑
	<p><b>Blogs</b></p> <p>Blogs provide a publishing-oriented experience for a single user or a team. Windows SharePoint Services v.3 includes a site template that supports:</p> <ul style="list-style-type: none"> <li>• Article posting</li> <li>• Reader comments</li> <li>• Archive views</li> <li>• RSS feed generation</li> </ul>	☑		☑	☑
